A Happy Christmas

The Christmas season of good cheer and good will has come again. The centuries-old song of the angels "Peace on earth, good will toward men" is still being sung in the hearts of mankind. There is present peace between the nations in the sense that they are not engaged in physical warfare, and the League of Nations is striving mightily to maintain this condition. But in the sphere of trade a bitter war is in progress; one of the most intense yet waged in the history of the world. While the nations are co-operating to prevent physical warfare, they are opposing each other in a great trade battle.

In this great world struggle no two nations appear to be allied together. It is not a contest between two groups of nations, as was the case in the Great War, but a world-wide struggle in which each nation is fighting against all other nations. Selfish national interests overshadow everything else, and in the resultant struggle all are sustaining loss, while the general public weal of the world is completely lost to sight.

And as the nations lose, the individual citizens in all countries suffer. What the ultimate outcome will be no man can foresee. But what everyone does know is that there is world-wide business depression, widespread unemployment, a world glutted with food products which cannot be sold at a profit to the producer, while at the same time thousands of people are in want for the bare necessities of life.

Under the circumstances it would be rank mockery to extend the time honored wish, "A Merry Christmas." This is no time for merriment, but, if we will, it can be a time of much real happiness.

In countless homes where, because of existing conditions, it is not possible to provide the usual seasonal gifts which bring joy to both giver and receiver, dancing lights into the eyes of children and happy exclamations to their lips, Christmas this year can nevertheless be made a very, very happy day in the home. Father and mother can develop a new gentleness, a greater thoughtfulness, a finer tenderness toward each other and their children than may have hitherto prevailed. True love can be made to radiate throughout the home, and the absence of the more tangible tokens of affection may be more than compensated for by a finer atmosphere in the home, a spirit of love and tenderness which will draw all members closer together. True happiness may thus be found, and worldly adversity may result in great gain.

And in those homes where the necessity for abandonment of time-honored customs does not intrude, Christmas of 1930 can, by the cultivation of the attitude referred to, be made the happiest Christmas ever known.

Times are hard and suffering prevails. It would be folly to shut our eyes to the facts and seek to deny them. But they will pass sooner or later. The index of our individual strength and weakness of character, the measure of our own bigness or littleness, is not established in times of prosperity, but in times of adversity. It is easy to float with the stream; it is the struggle against the current that makes a man or a woman. The weak can float down stream; it is the strong who struggle upstream to grasp the better things of life.

When we come to the rapidly, and all must pass through them, it is the weak who founder, grasp at unsubstantial straws, abandon principles and ideals, and finally sink, while the strong nerve themselves to the struggle, seize upon a rock, hang on, and emerge triumphant from the ordeal.

This is a time of testing. It may well prove to be the most momentous period in many a life. If we weakly give in, cry out against fate, cease to struggle and allow ourselves to drift after forsaking all the charts that guided us in the past, then tragedy lies ahead. But, if, instead of becoming soured and bitter, and making ourselves and all about us more discontented and unhappy, we continue to look onward and upward, strive to make the best of things and hold fast to our principles and ideals, we cannot fail to come bigger, better, finer, and in so developing ourselves we will also help others and hasten the day of higher, happier, yes, merrier times.

We hope that this wish will animate our Canadian homes at this time.

Wish one and all "A Happy Christmas."

Casting Propaganda

Not Bound By International Regulations

Russia, not having been a member of the Washington International Radio Conference held a few years ago, is not bound to observe any international regulations regarding wave-lengths. H. B. Lees-Smith, British postmaster-general, stated in the House of Commons in reply to a questioner who asked if broadcasts from Moscow could not be controlled.

The question was a sequel to the statement of Rt. Hon. Arthur Henderson, foreign secretary, of a few days ago, that he would direct the attention of the Soviet Government broadcasts conducted from Moscow in English and inciting the English workers to join the world revolution. The foreign secretary regarded the broadcasts as a violation of the Soviet promise to abstain from propaganda.

Named After Aviator

Station on Hudson Bay Railway To Be Called "Boyd"

A station on the Hudson Bay Railway will be named "Boyd," after Capt. J. Errol Boyd, of Toronto, the first Canadian to fly across the Atlantic. It is at Mileage 250.1 and was originally named "Linklater," but as there is already a station and post office in Saskatchewan called "Linklater," the postal authorities asked that the one on the Hudson Bay Railway be changed. Hon. R. J. Manion, Minister of Railways, took this opportunity to honor the Canadian aviator.

Source Of Canada's Gold

The chief source of the gold produced in Canada is the gold-bearing quartz deposits of the Porcupine and Kirkland Lake districts in Ontario, which are responsible for more than 85 per cent. of the output.

Bones are composed of two main types of substances—proteins and minerals.

Wins Grand Prize

Exhibit Of C.N.R. At Antwerp Attracted Much Attention

Depicting the salient features of Canada, the Rocky Mountains, the vast western plains and the mighty waterways of the east by means of a travelling panorama, 200 feet long and 15 feet in height, the exhibit of the Canadian National Railways was awarded the Grand Prix at the Antwerp Exhibition, it was announced at Antwerp.

The exhibit included a set of illuminated transparencies, showing scenes in all parts of the Dominion and dealing with many phases of the interesting life and development, most of the various stages in the production of our wheat. A working model of the giant locomotive 6106 was also shown. The exhibit attracted the attention of many thousands who visited the show.

Will Maintain Traditions

Ned Dean Of Winchester Is Distinguished Classical Scholar

The traditions of high scholarship long associated with the deanery of Winchester, England, will undoubtedly be maintained in the appointment of Rev. Edward Gordon Selwyn to succeed Rev. Dr. Hutton who died recently.

Rev. Dr. Selwyn has been rector of Redhill, Havant, in Hampshire, England, for the past 11 years. He served as chaplain to the forces in 1918 and was mentioned in despatches. He is 45 years of age.

The new dean of Winchester is a distinguished classical scholar and editor of the monthly religious journal, "Theology." He has been select preacher at Cambridge and at Oxford in different years.

Barber's Itch and Ringworm are relieved by the use of Douglas's Egyptian Liniment; quick, certain results. Relieves the most obstinate cases.

Value Of College Course

To the student working his way through college—and even to those who have their way paid—\$100 a day would seem pretty good wages. And, according to figures compiled by the United States Bureau of Education, college graduates earn from \$56,000 to \$112,000 more by the time they are sixty than do those who go to work immediately after leaving high school. A four years' college course, therefore, has a value of from \$77 to \$155 a day.

To Assist Radio Broadcasts

Will Photograph Northern Lights In An Effort To Learn Cause Of Static

Extensive experiments, directed by Professor J. C. McLennan, of University of Toronto, and aiming at the discovery of an entirely new medium or radio transmission, have been going on for some time now at Blacksmith Rapids, in Northern Ontario and will, with the co-operation of the Mines Department of the Ontario Government, be pushed further, it is understood, this winter.

Assistants to Dr. McLennan are engaged at the present time, it is reported, in photographing the Northern Lights in an effort to learn if they cause static—the plague of radio reception.

Blacksmith Rapids has been selected as a base for experimental operations because, it is said, of the particularly clear attempts to be found there. Establishment of the new medium sought by the investigators will, it is understood, mean the elimination of static, or at least its reduction to almost negligible proportions in radio broadcasts.

Australian Butter

Federal Government Has Import Situation Under Advisement

A cabinet council discussed a report from Vancouver that Canada would be flooded with Australian butter. With complete data before the members the cabinet gave consideration to the whole matter; and while there was no official declaration made at the conclusion of the sitting the feeling in political circles is that such a condition will not be permitted to arise.

Previous to the meeting, L. R. McGregor, trade commissioner for Australia, in a statement issued, said there was "absolutely no danger" of the Canadian market being flooded with Australian butter.

Monthly Wheat Bulletin

Publication Will Deal With Important Happenings In The Wheat Situation

A special monthly bulletin dealing with the important happenings in the wheat situation throughout the world has just been instituted in the Dominion Bureau of Statistics, agricultural branch, by Hon. H. H. Stevens, Minister of Trade and Commerce. The object of the publication is to keep the Canadian public in close touch with the wheat situation in Canada and all important countries of production and consumption.

Arrangements have also been made by the bureau for a cable service with co-operation of the Canadian trade commissioners abroad.

May Hold Investigation

To Enquire Whether Imported Films Contain Propaganda

Commissioner Peter White, K.C., declared that under the Combines act the question whether imported films contained propaganda affecting the national life of Canada, may be investigated during the course of the inquiry into the affairs of Famous Players Corporation and 22 other distributors and theatre companies.

No evidence or information was offered the opening session of the inquiry held in Toronto, which was ordered by the Minister of Labor, Hon. O'Brien Robertson, following a preliminary investigation under the Combines Act.

Millers Worm Powders will clear the stomach and bowels of worms, so that the child will no more be troubled by their ravages. The powders are sweet to the taste and no child will object to taking them. They are non-injurious in their composition, and while in some cases they may cause vomiting, that must not be taken as a sign that they are nauseating, but as an indication of their effective work.

Photographic Marvels

With a new camera, whose pages of newspapers can be accurately copied and reproduced on a piece of photographic paper no larger than a wet pocket. A whole newspaper can be photographed on a roll of film less than three feet long. With a special projector, perfected by Dr. Thomas P. Martin, of the Library of Congress, the whole newspaper can then be shown in its natural size.

Relieve Your Cold with Minard's Liniment.

Preparing Seed Exhibit

Over 80 farmers in the North Okanagan district have made application to the British Columbia Department of Agriculture for inspection of their crops with a view to preparing seed for exhibit at the World's Grain Exhibition and Conference at Regina in 1932.

Glasgow has a lower-house rent drive.

Sees End Of Depression

Member Of U.S. Federal Farm Board Says Hard Times Cannot Last Long

Charles C. Teague, member of the U.S. Federal Farm Board, in an address prepared for delivery before the American Farm Bureau Federation, expressed confidence that the current business depression "cannot last long."

Teague, reviewing events leading to the economic situation, said "confidence was shaken to such a degree that there has been a general depression far more widespread than the conditions warrant. Our business structure has never been sounder. The great body of our people are working and at good wages. I am therefore confident that this depression cannot last long; already there are signs of better times."

The federal farm board, up to Nov. 7, 1930, had loaned to farm organizations, Teague said, a total of \$308,347,000, of which \$119,000,000 had been repaid, leaving outstanding \$189,347,000.

Commenting on surpluses, he said, "In our major crops, such as wheat and cotton, which are grown over such wide areas by so many producers, it is doubtful if there is any cure for depressing surpluses except by voluntary action of producers, or forced by low prices."

Radio Announcer In Danger

Broadcasting Details Of A Stolen Car When Steel Bolt Comes Through Window

Geoffrey Bartlett, Saskatoon radio announcer, recently was broadcasting a description of a stolen automobile. He stood for a second before the microphone. When he had finished—alone in the room—a 12-inch steel bolt suddenly crashed through the ground floor window, flashed over Bartlett's shoulder and struck the wall.

"If Stan is listening, will he please call the police," Bartlett barked into the " mike." Stan was a fellow broadcaster and he happened to be in the room. Police rushed to the radio station but Bartlett's assailant had disappeared.

Need For New Ruling

British-Born Persons Should Be Protected In Canadian Citizenship

What is needed is a simple enactment that British-born persons whether from Great Britain or the other Dominions, who have become Canadian citizens shall be deemed Canadian citizens in every sense of the word and have exactly the same rights as Canadian-born citizens. Until such a law is passed there is not an English, Scottish or Australian citizen of Canada, no matter of how many years standing, who can feel certain that, should he once leave the country, he would be allowed to return to it as a matter of right—Vancouver Star.

Attempting Walk Around World

Fair Expert Journey Will Take About Four Years

Aspiring to be the first man and woman to walk around the world, Joseph Skolich, a native of Jugoslavia, and Miss Pearl Dudley, of Bangor, Maine, arrived in Saint John recently. They will have completed the estimated four-year journey when they reach Halifax. The couple left Washington, D.C., on September 8. They will sail from Halifax for Glasgow, Scotland, and will cover Scotland, Ireland, England, and continental Europe.

A Good Recommendation

The herd of pure bred Jersey maintained at the New York state experimental station, Geneva, has been milked by machine for 23 years. This is said to be the longest continuous milking of any herd by machine. At the present time, the average yearly production is 7,300 pounds of milk and 400 pounds of fat, based on the calendar year and including all animals over two years of age.

Persian Balm preserves and enhances women's natural heritage of beauty. For sheer feminine loveliness it is unrivalled. Tones and rejuvenates the skin, and makes it exquisite in texture. Delightful to use. Smooth and velvety, it imparts a youthful charm to every complexion. Indispensable to all dainty women. Especially recommended to make hands soft and white. Delicately fragrant. Preserves and enhances the loveliest complexions.

Makes Job Difficult

Teaching in a rural school is a complicated job for Katherine Morgan, at New Albion, Iowa. She has 19 pupils, 19 of which have the same last name. The whole group is named Hammel except one. All 19 are cousins.

Minard's Liniment for Frost Bite.

Bank of Montreal Annual Meeting

The annual general meeting of the Bank of Montreal was marked by a distinct feeling of confidence in the general outlook in Canada.

Sir Charles Gordon, the President, in reviewing the principal developments of the year, said in part:—"I am sure it will be very gratifying to the shareholders to learn that the bank has not suffered any losses from depreciation in the securities which the Bank holds as part of its assets. From this you will understand that great care has been exercised in our investments."

The year under review has been a most difficult one for banks and for practically all classes of business, and this has been reflected in our profits, but nevertheless ample provision has been made for all losses and prospective losses.

"Examination of the figures of the foreign trade of Canada shows how large a part the item of wheat plays. No other single commodity approaches this cereal in volume and value; as a consequence, when crop failures occur, prices fall below the line of profitable production, the whole business of the country is weakened."

The wheat crop of 1929 was short in quantity; the crop of 1930 was short in price and a glutted market, but the foreign trade returns disclose the results of these unfavorable conditions. To short crops and congested markets are due much of the reaction in general business, the decline in railway traffic, the diminished earnings of carriers by land and water, unemployment of

labor, and above all, diminished purchasing power of the agricultural class.

"In summing up his conclusions, Sir Charles stated that in this vitriol country of Canada with its abundant resources there can be no permanent depression. My own view is that when the turn comes, Canada will be found leading the procession in the return to prosperity."

General Managers' Address

The address of W. A. Egan and Jackson Dodds, the General Managers, dealt more particularly with the report of the Bank for the past fiscal year. The report said in part:—"In times like the present it is inevitable that losses suffered through the heavy fall in prices must affect Banks at least indirectly. It is a satisfaction to be able to assure you that we have made ample provision for all losses and doubtful debts. You will note that the traditionally strong liquid position of our Bank has been maintained. This was accomplished without curtailing the credit requirements of our customers."

"A notable increase during the year in the number of cheques is specially gratifying, as we have consistently emphasized the fact that the Bank of Montreal welcomes small accounts."

In referring to the situation in Canada, the report said:—"The return of prosperity will probably be slow, but there are grounds for believing that the worst of the depression is near at hand."

France Will Buy Our Wheat

Undertakes To Import From Seven Nine Million Bushels

France has undertaken to import a minimum of from seven to nine million bushels of Canadian wheat in the course of the next four months, the Minister of Trade and Commerce, Hon. H. H. Stevens, announced following receipt of advice from the Canadian trade agent in Paris.

Mr. Stevens began negotiations with the French government during his brief visit to Paris following the Imperial Conference.

In an effort to stimulate domestic production the French government for a long period has restricted the use of foreign wheats in blends for flour to 10 per cent, but the minister is now advised that an early enlargement of this to 15 per cent. is expected. This would have the effect of materially increasing the demand for Canadian and other foreign wheats.

Altogether there is good prospect, according to Mr. Stevens, that by May 1, next, the French republic may import some 20,000,000 bushels of Canadian wheat.

Though this would not of itself solve the problem of wheat export, since there will be between 200 and 250 million bushels available for export from the 1930 crop, it is regarded as a favorable omen of better prospects in the export wheat situation.

A Strange Cargo

One of the strangest cargoes that ever left Cardiff, Wales, was shipped by the Norwegian "Vigdis." It consisted of 835,200 gallons of Cardiff brown water. The "Vigdis" is sailing 1,000 miles to the Antarctic, where she will act as provision ship to 20 whalers. She carries 1,615 tons of potatoes.

Canadians As Beef Eaters

Montreal Uses 100 Tons Of Beef Every Day In The Year

A recent estimate places the per capita consumption of beef in Ontario at around 60 pounds a year. In a city the size of Montreal with an estimated population of a million and a quarter this means that 37,500 tons, more than 100 tons of beef every day in the year, are used in supplying the demand.

In a city the size of Toronto, with a population of some 750,000, it takes 22,500 tons of beef a year to keep the soup pot and ovens busy.

Translated into terms of cattle it takes 125,000 head of beef cattle weighing an average of 600 pounds each dressed, to supply a city the size of Montreal, and 75,000 head of the same average dressed weight to supply a city the size of Toronto.

Only 30 per cent. of this volume at the present time is good enough in quality for government grading.—By Department of Agriculture, Ottawa.

Big Salmon Pack

The salmon pack of British Columbia for the 1930 season is nearly 100,000 cases higher than the previous record of 1926. The total pack this year is 2,163,712 cases; 1926, 1,929 total was 1,388,476 cases; 1928, 2,035,629; 1927, 1,360,634; 1926, 2,065,451.

At the Kimberley diamond mine in Africa, diamonds have been brought from a depth of 2,600 feet.

MASS BUYING PLAN IS URGED FOR FARMERS

Toronto, Ont.—A great "trading agency" through the Canadian farmer would sell all his products and purchase all his requirements, was urged by William Irvine, M.P. for Wetsakwin, Alberta, in an address at the annual banquet of the United Farmers of Ontario. The full economic power was to be found in the buying as well as selling, and it was for the preservation of this power he pleaded. This should be preserved, he said, for the purpose of raising the agricultural status in Canada to a level of that of any other class in the community.

As a means of utilizing this power they would form the "trading agency," which would be composed of the various agricultural pools now in operation throughout the country. Through the massed purchasing they would be able to secure their requirements at a much lower price and be thought of as the consumer. Farmers would be able to secure standard rates for their products.

Mr. Irvine suggested that the attitude of the farmer should be one of hopefulness; true to the co-operative principle—economically, politically and socially. The co-operative attitude should be taken especially in the political matters. The government, while not paying tribute to it, had been faced by the greatest problems that had ever confronted any such body in Canada, and the farmer should lend all their co-operation.

While perhaps not practical just at the present time, Mr. Irvine suggested, while briefly surveying the wheat situation, that a universal pool was the only means by which grain prices could be regulated. He was not criticizing the action of the Canadian pools, he said, for they had done great work, and must continue to do so.

Naval Treaty Approved

Dall Eireann Recommends That Treaty Be Ratified

Dublin, Irish Free State.—The Dall Eireann, following the example of the Senate, approved the London naval treaty, and recommended that the government ratify the instrument signed by Great Britain, the United States and Japan in London, England, this spring.

Sean O. K'elly, a leader of the Eamon De Valera opposition party, viewed the document as taking domination of the act from Britain and giving it to the United States, but said Ireland had nothing to fear on that score since the United States had always been a friend of Ireland's.

Awards For Manitoba

Stock Men Capture Two At Guelph Winter Fair

Guelph, Ont.—Manitoba stock men captured two of the three important awards in the market cattle classes which brought judging at the Ontario provincial winter fair to a close. R. M. Smith, of Brandon, Man., gained the championship for market cattle, and George Tait, of Warren, Man., won the Dominion Government special for the best three finished steers, 1,050 pounds and under, owned by one exhibitor.

The reserve championship was won by J. J. and G. A. Parkinson, Guelph.

Domesticity On Farm

Farm Is the Ideal Place For a Happy Married Life

Toronto, Ont.—The ideal background for successful marriage is on the farm, Mrs. J. Alex Wallace, of Simcoe, told delegates to the United Farmers of Ontario convention here. "On no place but the farm," she said, "is the woman more nearly the partner to her husband that God intended her to be." Mrs. Wallace boasted (amid laughter), that she knew where her husband was at almost any time of the day.

Exams To Be Held Here

London, England.—At the request of the Canadian Medical Association, the Royal College of Surgeons has decided to hold its primary examinations for fellowship in Canada next year, it was announced.

King Attends Ceremony

Oslo, Norway.—Frank B. Kellogg, former United States Secretary of State, received the Nobel peace prize for 1929, in the presence of King Haakon and a distinguished audience.

Five Resources Districts

Will Be Established In Saskatchewan To Replace Lands Branches

Regina, Sask.—Five resources districts, to supersede the lands branches under the Dominion Government, will be established by the Department of Natural Resources for administrative purposes in Saskatchewan, Major John Barnett, deputy minister of natural resources, stated here.

The principal office will be established at Regina, where the department headquarters are located. Three offices will be established in the north, the principal office to be at Prince Albert. An office for the administration of resources in the southwest will be established at Moose Jaw.

The province will be divided into five districts, each to be directly under a superintendent, with the exception of Regina, which will come under the main administrative office of the department.

Legislation for the administration of the resources of the province will be introduced at the January session of the legislature and will include provincial acts to supersede the federal bills under which the resources were previously administered.

The Provincial Lands act taking the place of the Dominion Lands act has been completed, is ready for presentation to the legislature and is practically identical to the Dominion act, with the exception that there is no homestead provision.

Other bills to be brought down include a mines act, forests act, water rights act, and surveys act. The passage of this legislation will bring the natural resources under the full control of the province.

Canadian Radio League Established

For Promotion Of Canada's Interests In The Radio World

Ottawa, Ont.—Avowing its purpose to be the promotion of Canada's interests in the radio world and the establishment of an organization which might eventually become a medium of expression for those interests, the Canadian Radio League has come into being and assumed definite shape at a meeting here. Temporary chairman of the executive committee is Graham Spry, with Allan Plaunt secretary.

In a memorandum announcing the raison d'être of the league, its attitude towards national broadcasting is set out in the following terms:

"The solution the radio league sees of the present radio problem, the one means towards making the radio a great instrument of entertainment and education for the nation, is the establishment of a national broadcasting company with the powers of a private enterprise and the functions of a public utility."

A national broadcasting system would ensure, according to the Canadian Radio League, that every Canadian could hear Canadian programs, but not to the exclusion of other broadcasts.

Was Economic Failure

Empire Conference Great Disappointment Says General Smuts

Bloemfontein, South Africa.—"The Imperial Conference was a complete failure from the economic point of view," declared General Jan Christiaan Smuts, leader of the opposition in the South African parliament, and former prime minister.

"What might have been the most brilliantly successful of all Imperial Conferences ended in disillusionment and disappointment for every part of our commonwealth of nations," he told the annual congress of the South African party of which he is the head.

Will Not Raise Shoe Prices

Manufacturers Say No Increase In Price On Account Of Tariff

Montreal.—Canadian shoe manufacturers attending the 12th annual convention of the Shoe Manufacturers' Association of Canada here, took the pledge that they would not raise the price of shoes because of any protection afforded by Canada's new tariff. They also promised to do everything in their power to maintain the quality of the product.

A resolution calling upon the government to revise the Bankruptcy Act was adopted.

John T. Tebutt, Three Rivers, Que., was re-elected president.

Opens January Twenty-Ninth

Edmonton, Alberta.—The seventh legislature of the province of Alberta will open January 29. It has been announced by Premier Brownlee.

Was Famous Singer

R. Watkins-Mills, Singer Of International Note, Passes Away In Toronto

Winnipeg, Man.—R. Watkins-Mills, 74, famous singer, who lived in Winnipeg from 1917 to 1924, died in Toronto, Dec. 10, following several months of indifferent health.

A basso of international note, Mr. Watkins-Mills had appeared in concert throughout Canada, and in his early career and recent engagements, he sang at coronations of His Majesty George V. He also appeared in Majesty the late King Edward and command performance before Queen Victoria.

Mrs. Watkins-Mills, whom he married from Los Angeles to Toronto, where the funeral will be held on Friday, Dec. 12. Watkins-Mills was born in Paiswick, Gloucestershire, England.

Berlin Bars Demonstrations

Fascist Contingents Have Received Warning From Police Chief

Berlin, Germany.—Police Chief Grezinski slammed the door on all further open air demonstrations of whatever character in Berlin as an answer of the authorities to recent disturbances provoked by Berlin Fascist contingents.

The police decree bars all public demonstrations and warns all political organizations that any crowd collecting thereafter would be broken up with force.

CAPTAIN BURKE MEETS DEATH IN NORTHERN WILDS

White Horse, Yukon.—Captain E. J. A. Burke, a world war aviator, who was peace-time adventuring in Canada's Northland, perished from exposure on November 20, while heroic fellow flyers were battling to find him. His two companions, Emil Kading, Vancouver air engineer, and Robert Marten, Alton prospector, were rescued Sunday, December 7, in the last stages of exhaustion. The hero of the solving of British Columbia's greatest air mystery is Pilot W. L. Wasson, who brought the news of Burke's death, and the two survivors, to White Horse, Dec. 10.

Kading and Marten were too weak to give full details of their wanderings in the mountain wilderness of the Yukon since they were lost on October 11, but it was learned from them that Burke died on November 20, after the party had made camp in the timber following a long struggle through snow and bush.

The signal smoke from the place where the two survivors had apparently made their last encampment before death should overtake them also, attracted the attention of Wasson and Joe Walsh, a guide accompanying him. The smoke was spotted from the air and the rescuers were able to land on a small lake about 12 miles distant. They mushed on snowshoes to the camp and found Kading and Marten near starvation, keeping what seemed a closing vigil over the body of their dead pilot and companion.

Unable to lift the "plane of the small lake with a heavy load, Walsh and Walsh had to leave Burke's body behind. They plan to return and bring it to White Horse immediately.

The three men had wandered 40 miles north of where they had landed their plane near the headwaters of the Liard River when forced down in October.

Passes Through Canada

His Excellency Lord Stonehaven, Governor-General of Australia for the past five years, and Lady Stonehaven recently passed through Canada from Vancouver to Quebec by Canadian Pacific, sailing from the latter city for England by the "Duchess of Athol." The distinguished visitor stated that Australia was anxious to establish closer trade relations with Canada and was carefully studying conditions here with that aim in view.

NOBEL PRIZE FOR PEACE

Dr. Nathan Soderblom, archbishop of Uppsala, Sweden, who has been named winner of 1930 Nobel Prize for peace.

The Wheat Situation

Federal Government Is Giving Due Consideration To Western Problems

Ottawa, Ont.—The wheat situation and conditions among the farmers of the prairie provinces, are daily engaging the most serious consideration of members of the Dominion government. Representatives of the government of the western provinces are expected to come to Ottawa some time this week to confer with the prime minister in the matter.

In the meantime, many communications are reaching various members of the government in each mail arriving from the west, asking for the establishment of a minimum price for Canadian wheat. The bulk of these letters are from members of the wheat pool in different parts of Saskatchewan; and the nature of the request is for a guarantee of 70 cents per bushel on No. 1 Northern at Fort William. Under the Canadian constitution, the fixing of a minimum price, such as the one suggested, is understood, is a matter for parliament alone.

GOVERNMENT HOUSE

OTTAWA

As Patron and Patrons of the Canadian Tuberculosis Association, we send our warmest good wishes for the success of your Christmas Seal Sale.

In our numerous tours through all parts of this great country, we have been much struck by the splendid efforts which are being made to combat this terrible disease, and the generous public spirit which is being shown to take every step possible to secure the health of our people, which should and must be the prime purpose of us all in laying the foundations of the life of our Nation.

To all who are giving their time and activities to raise this fund, we send our cordial greetings and trust that their efforts, which have been so successful in the past will this year be crowned with greater success than ever before.

John Dillinger

May Try Experiment

London, England.—A Britain may soon abolish capital punishment for an experimental period of five years, if the recommendations of the House of Commons committee on capital punishment are accepted. The main feature of the committee's report is understood to be a suggestion that the experiment be made.

Carnival At The Pas

Arrangements Have Been Completed For Annual Winter Fete

The Pas, Man.—Preparations for the glamorous winter carnival and for the 200-mil non-stop dog race from The Pas to Flix Flon and return, were completed at a meeting of citizens, December 9. The gathering re-elected Dr. P. C. Robertson, mayor-elect of The Pas, as president.

The race will be run over the same course and under the same conditions as in previous years. Among the mushers who will be entered this year will be Emil St. Godard, regarded by many as the greatest dog racer of the present day; Earl Boydles, who last year defeated him for the first time in the dog derby here, and probably Leonard Sepala, famous American dog racer.

No date has been set for the derby, but from present indications it will be early in March. It will follow the Quebec derby which ends on February 21.

Dollar Wheat

British Columbia Farmer Able To Get A Little More Than A Dollar A Bushel For His Crop

Saskatoon, Sask.—There are still farms in Canada where wheat is worth more than a dollar a bushel, says Professor E. C. Hope, of the Department of Farm Management at the University of Saskatchewan. Professor Hope's brother, A. C. Hope, a mixed farmer in the lower Fraser Valley in British Columbia, was able to get a little more than a dollar a bushel for the soft wheat raised on his 40-acre farm. This wheat would not grade here above number 4. The grain raised on this farm was sold to local poultry raisers and dairymen.

Professor Hope explained that the high price of grain in British Columbia is due to the high domestic freight rates on grain.

Soviets Start Campaign Against Christmas

Militant Atheists Declare It Is A Snare and Delusion

Moscow, Russia.—The Soviet anti-Christmas campaign began with an announcement by the all-union society of militant atheists that thousands of professors, teachers, lecturers and students had been mobilized to instruct the public about Christmas and how it is a snare and a delusion.

On Christmas night theatres and clubs will offer extra entertainment with the purpose of attracting the wavering from church services.

WRIGLEY CO. HAS NOVEL PLAN TO HELP THE WEST

Toronto, Ont.—William Wrigley, Jr., Company, Ltd., has decided all money owing it in Manitoba, Saskatchewan and Alberta, from December 12, 1930, to May 1, 1931, shall be accumulated to purchase wheat for delivery in May, 1931. F. A. Ross, president of the company, announced here. In other words, he said, the company proposes to take wheat in exchange for the firm's products. The purpose Col. Ross said, was threefold:

1. The company does not take cash out of western Canada but on the contrary leaves its money in western Canada, in western Canada's own coin—wheat.

2. The company believes wheat at 65c a bushel is cheap and the company will make money looking up some of the company's resources in wheat and holding it indefinitely if necessary.

3. The company believes the plan will relieve, to the extent of its ability, a carrying strain on farmers, by relieving western business and banks, at this critical time in western Canada's affairs.

Announcing the formation of the "Wrigley wheat investment fund to buy and hold 1,000,000 bushels of Canadian wheat," Mr. Ross said the offer was "in no sense a gamble, nor is it an advertising stunt."

In a letter addressed to wholesalers of the firm in the prairie provinces, made public with its announcement, Mr. Ross says: "If wheat goes up, as we feel it probable, we will profit. But if it goes down, we become partners with the west, and as such, take our loss with them. Our real object is to let Western Canada pay in kind—in wheat for what the West owes us. And, unless wheat goes up we propose to invest further of the if it goes down, we will lose it. We actually own 1,000,000 bushels."

CHURCHILL IS OUTSPOKEN ON INDIAN PARLEY

London, England.—Outspoken declaration of Rt. Hon. Winston Churchill against immediate self-government for India, set the Indian round-table conference pot boiling. Indian delegates were asking themselves whether the former chancellor of the exchequer was speaking only for himself, or whether he reflected the views of the Conservative members of the British delegation at the Indian conference.

Mr. Churchill is not a member of the conference. It was recalled that while the naval conference was in session last year, he made a similar frank pronouncement of his views, but it had little effect on the conference. In the naval conference, however, Britain was represented only by the Labor government; in the Indian conference the British delegation consists of members of the three major parties.

The Indian comment heard was that if Mr. Churchill's views were shared by the Conservative members of the conference then the conference would likely have a speedy ending without any results. On the other hand, it is doubted whether Mr. Churchill represents more than the views of a comparatively small "die-hard" section.

Nevertheless the Indian conference faces difficult days. This week it comes to grips with the far-fetched question of responsible government. Prime Minister Ramsay MacDonald has continued his work as mediator between Hindu and Moslem delegates to the conference. There were further talks at 10 Downing Street, and they are to be continued. No settlement is yet reported.

It is frankly recognized that until the different communities reach an understanding the conference will be unable to make much effective progress.

World Wheat Organization

Suggestion Is Made That Sellers Of Wheat Organize Internationally

Washington, D.C.—The prospect, however distant, of a world situation in which the sellers of wheat would be internationally organized was suggested by Hon. Parker Maloney, Australian minister of markets and exports, in conversation with the Canadian Press here. Mr. Maloney felt that at some future time the producers of primary commodities, such as wheat, might find it necessary to organize internationally. But first there must be national organization.

The minister conferred with Alexander Legge, chairman of the Federal Farm Board, and with Secretary of Commerce Lamont. His visit to the farm board offices was for the purpose of discovering for the benefit of Australia something of the methods and results of organization of agriculturists in this country.

Planes For Training Purposes

New "Puss" Moths Ordered For Use At Camp Borden

Ottawa, Ont.—Officials of the Department of National Defence confirmed reports from London, England, that a contract had been entered into with the De Havilland Aircraft Co. for ten "Puss" moths, delivery to be made at an early date. Cost of the "planes" is about \$6,000 each.

It is planned to use the new aircrafts for training purposes this winter at Camp Borden, Ont., where pilots will be put through a course in "blind flying."

Studies Spanish Language

Prince Of Wales Prepares For Visit To South America

London, England.—The Prince of Wales, who has been studying Spanish in preparation for his forthcoming visit to South America, recently addressed the Argentine Club fluently in Spanish and English.

"The Argentine ambassador (Don Evaristo Uriburu) mastered English so well during his stay in this country," said the prince, "that I feel it is up to me to do something in return. So I speak in Spanish."

New Liner For Pacific Service

Halifax, N.S.—New Canadian National liner "Prince Robert," built for Pacific coast service, arrived here from Liverpool, England. Captain S. F. Cameron, experienced Canadian shipmaster, will command the ship across the Atlantic via the Azores. He considers the ship ideal for the Pacific coastal run.

NOTES AND COMMENTS

The Calgary Albertan challenges the attitude of The Journal regarding applications for naturalization of would-be citizens who frankly tell the court they are not satisfied with the laws of Canada. While not favoring a spineless subservience to obtain citizenship, the fact remains that since old-age pensions came into force, there have been made applications for naturalization which, had the applicants been imbued with a real desire to become Canadian citizens, would have been made years ago. If a foreign-born person desires citizenship merely for what he can secure from the country of his adoption, to which he came to improve his position in life, will he develop that type of national sentiment and loyalty which is very desirable and necessary? Quite often too little value is placed on citizenship by many who come from other lands, and the higher it is valued by native-born citizens, the more highly will it be regarded by those who seek its rights and privileges.

The provincial government, through its highways department, has given the Red Trail another slap by deciding to postpone the graveling of the highway from Taber to Medicine Hat. It has made no provision to keep the road open from Coleman to the British Columbia boundary at Crows Nest, despite repeated requests from both sides of the inter-provincial line. The only connecting link through the mountains by auto travel in the winter time is ignored by department officials at Edmonton. Boards of Trade and urban and municipal councils of Southern Alberta will have to unite in protest against this indifference towards the most important highway from Medicine Hat westward to British Columbia, and this protest should be emphatically voiced at the next session of the provincial legislature by all members from the south. Lethbridge, the most important city of the south, might well lead in organized action to secure a remedy and thereby prevent a similar condition to prevail next winter.

Winston Churchill, stormy petrel of British political life since he was a youth, has drawn forth condemnation for his utterances on the Indian round-table conference in England. He keeps himself in the limelight by his frankly expressed opinions, even though he incurs severe censure from political leaders.

The wheat pool organization, after speculating and losing millions of dollars by its refusal to sell when wheat commanded three times the price of to-day, now turns to the Federal government to partly make good its gambling losses. European countries in recent years have increased their wheat acreage to such an extent that several now have exportable surpluses and Canadian wheat has not commanded the premium which pool heads considered it was entitled to by reason of its milling qualities. The average world acreage in wheat from 1909 to 1913 was 204,200,000 acres. The average for 1928-1929 was 244,600,000 acres, an increase of 40,400,000 acres. Excluding Russia and China, average production increased in the same period from 3,041,000,000 bushels of wheat to 3,973,000,000, an increase of 932,000,000 bushels. Experts of the selling end of the wheat pool must have been lacking in knowledge of world supplies or possessed of the opinion that they could force other countries to purchase Canadian wheat. The past year tells the sad story of how misguided they were. They gambled and lost!

It is unfortunate not only for the farmers, but for the whole of Canada, and a readjustment of the prices of those things which the farmer buys will have to follow, seeing that his purchasing power has been reduced by over half.

The war was to make the world safe for democracy, people were told in 1914. Today we are engaged in an economic war between nearly every country in the world. At that it is mild in comparison with the experiences of those years. It proves pretty well that in peace or war it is a survival of the fittest, as between nations. Self interest is uppermost in the minds of the great majority, and is reflected in the various governments of the nations. "Service Before Self" is an excellent motto proclaimed by Rotary International. Experience indicates that most people observe it by reversing it.

A word of wisdom: "We are learning with every other nation, and with astonishment, the simple economic law that we cannot sell unless the other nations can buy. This means that they must prosper, too, or we cannot prosper. This simple discovery may transform the world as much as the airplane will."

Your town or your business is just what you determine it will be. Ambition, setting a goal and persistent effort to reach it will result in achievement. Thought governs action, and concentration and persistent action can fulfill your desires.

Homer N. Galer Died in Vancouver

Was Prominent in Coleman in Early Days of Town and Active in Many Ways.

Following closely on the death of Mr. A. C. Plummer (t), there died on Sunday Homer N. Galer, general manager and vice-president of the International Coal & Coke Co. in its early years.

Following his removal from Coleman 25 years ago he lived in Spokane for some years, later moving to Vancouver, where he had since resided. He was president of the British America Securities Ltd. and was connected with several other financial concerns.

Old town records and files of the Board of Trade show that he was very active in local affairs in the period when the town was in the making. His son Chellis attended school here between 1904 and 1908, and at present he is Canadian sales manager for the Studebaker Corporation.

Mr. Galer was 66 years of age, and was born in Dunham, Quebec. Residents of the town who knew him in early days were greatly surprised and grieved to hear of his death.

Mr. Galer was overseer here before the town was incorporated, and during his term incorporation was made. Of those who served with him on the first council there are living in Coleman Frank G. Graham, Alex. Cameron and Rev. Mr. Robinson, since removed to Shelburne, N. S., was the first secretary. Ted. Holmes, now living in Creston, was also a member of the council.

A wreath bearing the names of many of the old-timers who lived here during Mr. Galer's time was forwarded to the family home in Vancouver.

President of British American Securities Ltd. Resided Here for Thirty Years.

(Vancouver Sun)

Collapsing in his chair at 8.30 o'clock Sunday night as he sat listening to the radio, Homer N. Galer, 66, president of the British American Securities, Ltd., died shortly after.

For more than 30 years he has been a prominent figure in Vancouver's financial and business world. Although he had been attending to business up until the time of his death, Mr. Galer had been in poor health for some time.

The date of the funeral has been set for Friday, pending the arrival here from Windsor, Ont., of Mr. Galer's son, C. N. Galer. Another son, Arthur Walker Galer, lives at home. The late Mr. Galer married Alice Walker of Bradford, Ont., in 1912, who survives her husband.

In the later Victory Loan campaigns, Mr. Galer took an active part and placed his Vancouver and Victoria staffs at the disposal of the campaign committee.

He was born in Durham, Quebec, and commenced his business career in 1888 in the Eastern Townships Bank, since merged with the Canadian Bank of Commerce.

Ten years later, in 1899, he came to Vancouver as assistant manager of the Granby Consolidated Mining, smelting & Power Co., a position he held until 1905. From then until 1911 Mr. Galer was general manager of the International Coal & Coke Co. In 1913 he took over the position of general manager of the British America Trust Co., a concern which he had organized at Grand Forks, B.C., in 1901.

Mr. Galer was a keen golfer and was frequently to be seen on the links of the Shaughnessy Golf and Country Club, of which he was a member. He was also a member of and took an active interest in the Canadian Club and the Scottish Rite A.F. & A.M.

CANADIANS LINE-UP

Players on Coleman hockey team this year are Cologrosso, goal; Gardner, Clary, defence; Jenkins, W. Gate, Lilly, forwards; junior forward line, W. Fraser, Bob Pattinson, "Peppy" Oliva, Joyce, Huffman. The several additional players signed on the club.

Christmas Services at The Churches

At the Holy Ghost church Christmas Services will be held at the usual hours for this occasion.

ST. ALBAN'S CHURCH

Next Sunday, the 4th in Advent, the services will be: 12.30 p.m., Sunday school; 4 p.m., Adult Bible class; 7.00 p.m., Choral evensong and sermon.

On Friday, Dec. 19, the annual Christmas tree and entertainment will be held in the parish hall at 7 p.m. All adult members of the congregation are cordially invited to be present with the children on this occasion.

Dec. 25, being Christmas Day, the festival of the Holy Nativity of our Saviour Lord Jesus Christ, the services will be: 7.30 a.m., Holy Communion; 9 a.m., Holy Communion (choral), Kyrie "Mendelssohn"; Sanctus, "Plummer"; Gloria in Excelsis; Gloria, "Plummer"; Offertory "Beethoven."

The following old familiar hymns will be sung: 74, 72, 75, 233, 73. All members of the church are expected to make their communion at one of the services on that day.

Mr. T. Edgar Roberts is choir director and Mrs. Clifford organist.

There will be Holy Communion at St. Luke's, Blairmore, at 11 a.m.

A choir social will be held in the parish hall on Monday, Dec. 29, at 7 p.m.

CHRISTMAS MUSIC AT UNITED CHURCH SUNDAY

Sunday, Dec. 27 will be set apart for the expression of the meaning of Christmas. At the morning service the Christmas message will be given by the minister and the junior choir will sing Christmas songs.

A feature of the evening will be a 15-minute stringed instrument recital by W. G. Harris and his pupils. The song service will consist of carols, under the direction of J. Emmerson. Anthems appropriate to the occasion will be sung by the choir. All are welcome.

The Journal will not be published next week on account of holidays.

IN MEMORIAM

BURNS—In loving memory of a dear husband and father, Joseph Burns, who died at Coleman, Dec. 21, 1925.

"Thoughts return to days long past, Years roll on but memory lasts, Sweet is the memory that ne'er will fade,

Of one we loved but could not save." Ever remembered by his loving wife and family.

In Loving Memory of Annie Wallace, beloved wife of Robert Jenkins, who died on Dec. 16, 1928.

Your rest is peaceful, mother dear, 'Tis sweet to breathe your name, In life we loved you very dear, In death we do the same.

A light has from our household gone, A voice we loved is stilled, A place is vacant at our hearth, Which never can be filled.

Inserted by her loving Husband and Sons.

In Loving Memory of my Dear Mother, Mrs. Annie Jenkins, who died on Dec. 16, 1928.

We miss thee and mourn thee in silence unseen, And dwell on the memory of joys that have been.

Inserted by her loving daughters, Mrs. D. W. Jessey and "Bunny," and Mr. Jessey, of Sebe, Alta.

Boy Scouts Good Act

Toys, dolls and many other children's playthings collected at the street martine by the Boy Scouts are being repaired in their workshop and will be distributed just before Xmas. Some of the dolls were in need of new limbs, others had cracked heads, but the patience of the boys and the help of the girls in making dresses for the dolls will enable many a child to receive an extra Christmas present. The Scouts are to be commended for their good work, under the supervision of Scout Master Turner, who has spent considerable time in this work.

Announcement!

Anyone desirous of obtaining "Scout Repaired Toys" for Christmas kindly inform The Coleman Journal, Rev. A. S. Partington or H. Turner, on or before December 21st.

Pay Your 1930 Taxes

on or before

Making your profits Permanent

THOUSANDS of men have "cashed in" on their holdings after years of unremitting toil and have re-invested only to lose their profits in unwise speculation. Life annuities provide an invincible protection against such calamities.

In May, 1928, a group of North Dakota business men sold their extensive holdings. While the deal was pending they decided to re-invest the proceeds in life annuity contracts. After investigation they paid the Sun Life Assurance Company of Canada over three million dollars in premiums for annuity contracts. They were attracted by the safety and convenience of these annuities and the large return.

Get details from your nearest Sun Life Representative.

D. Clive Betts With Carling Breweries

Appointed Manager of Plant in London, Ont. Well Remembered in Pass Tows.

Many old friends and acquaintances in this district will be interested to learn that D. Clive Betts, for 13 years associated with Carling Brewing Co. has been appointed manager of the London, Ont. plant of the Carling Brewing Co., having moved east last month.

He will be particularly remembered in Coleman for his good influence in securing for the town a modern hotel, the Grand Union, built some years ago on the site of the old hotel which had served the place since pioneer days.

In a personal letter to Wm. Bell, of the Grand Union, he refers to his many pleasant associations in the Crows Nest Pass, and asks to be remembered to his friends here. He states that he is settling down to his new duties there, receiving splendid co-operation from his business associates, and that he looks back on his thirteen years association with Western Canada people as a very happy period of his life.

His old friends here will doubtless join in wishing him success in his new appointment in the eastern city, for his genial nature and kindness to many here is well remembered.

THE LATE MR. FLUMERFELT

(Vancouver Province)

The death of Mr. Alfred C. Flumerfelt of Victoria is the loss to British Columbia of a distinguished and valuable citizen. For more than forty years he had been identified with the business and public life of the province, and in each of many positions he was found able and public-spirited. He was one of the men who carried forward the development of the Canadian west during the middle period, taking over from the pioneers, and shaping the tendencies towards the present character of our own local civilization. He had a full life, making and keeping a host of friends, and his passing now, in his seventy-fourth year, will be widely mourned.

For a brief period, under the premiership of Mr. W. J. Bowser, Mr. Flumerfelt was provincial minister of finance, but it was rather as business leader than as politician that he was known throughout Canada. He had an active and successful part in the organization and development of the mining industry in this province, and it was mainly by the reputation for ability and probity he earned in that field that he came to rank as one of the recognized financiers of Canada.

The list of his directorships is almost itself a directory of the business life of Canada, and he was actively interested in banking, mining, packing and shipping.

It is nearly thirty years since Mr. Flumerfelt retired from the presidency of the Victoria Board of Trade, after holding that position for a decade, and the fact marks at once the length of his connection with local business affairs and the varied nature of his interests. For in the last forty years he had never ceased to combine with an active participation in business management a very real and helpful part in many public benefactions. He was a life governor of Vancouver and Winnipeg General Hospitals, and a director of the Royal Jubilee Hospital of Victoria. He was a friend of learning and of forest conservation, and he endowed a chair of civil engineering in behalf of the latter cause. British Columbia has lost in Alfred Flumerfelt an able and useful citizen.

Personal and Local

The optimist sees the doughnut; the pessimist sees nothing but the hole.

The Badminton players of Fincher Creek are expected to play here in the near future against the local club.

Winners at the K. of P. whist drive on Saturday were Mrs. K. Hulbert, Mrs. Wm. Wilson, E. Hill Jr. and J. Wilson.

Attention is called to the articles suitable for gifts at Antrobus Shoe Store, headquarters for the famous Woods Lavender Line hose, etc.

A. J. Shulman, travelling passenger agent of the Canadian Pacific Railway, was a visitor here on Tuesday and gave The Journal office a pleasant call.

Edward Wood, who last week was operated on for appendicitis, is making steady recovery. His mother came from New Denver, B.C., last Thursday to spend a few days at the home of her daughter, Mrs. Sist.

Mrs. M. Lewis, provincial minimum wage inspector, of Edmonton, was here on Friday visiting the business places on her check-up. Inspector Munro, of the Neglected Children's department, was also a recent visitor.

Mr. and Mrs. S. Wilson and family of Kellogg, Mont., are visiting Mr. and Mrs. F. Paterson. Mr. Wilson returned to Kellogg last week, while Mrs. Wilson will remain in Coleman for several weeks.

Miss Laura Johnson, daughter of Mr. and Mrs. Wes. Johnson, has been appointed to the Cameron school staff to commence in the new year. She has been teaching in a school near Cowley.

The fire alarm was sounded on Tuesday evening, when a fire in the chimney of the United church caused a flutter of excitement. Some oily paper was being burned. It was not necessary to turn on the hose, as it burned itself out very quickly.

Mr. and Mrs. Chas. W. McKinnon left on Monday night for a month's holidays in Toronto, Tavistock, and other Ontario cities. C. C. Totten of Calgary is relieving agent. Mr. Barwis, night agent for several months, has left for Medicine Hat, his place being taken by J. Gamble of Taber. George Brown, express agent, states he is still on the job, and wishes everybody a Merry Christmas. Same to you, George!

The Italian Society will hold a dance in their hall on Christmas Eve. A cordial invitation is extended to all.

Hugh Dunlop returned from Calgary Normal school and Winnifred Dunlop returned from business college at Lethbridge.

The many friends of Mrs. Rushton will regret to learn that she is again under the doctor's care, and has been ordered to take a complete rest for several weeks.

A. M. Morrison, Geo. Pattinson and R. F. Barnes went to Macleod on Thursday to attend the funeral of Mr. Morraash, a very prominent old time citizen and who was well known in Southern Alberta.

PRESENT PROHIBITION CAMPAIGN BRINGS BACK MEMORIES

The memory of the public is brief, but it surely has not forgotten the prohibition years in Alberta.

In asking you NOT to sign the prohibition petition, we give as our reason the fact that none of us want to contribute to the bringing back of that era of law breaking and hard liquor drinking, of moral degradation and youth degeneration.

Our Youths are Protected Under the Present Liquor Act

No one under 21 can be served on licensed premises or buy from the Government liquor stores---the bootlegger will sell them, though!

DO NOT SIGN THE PETITION

Leave the Act alone. We don't want the bootlegger back again.

Prosperity or Bankruptcy

(By G. F. Bouchat)

If space would permit, there is nothing I would enjoy better than to draw for you, in the columns of this paper, a vivid picture of the devilish or octopus. That monster who has been sapping your communities of its very life-blood.

If you have a good encyclopedia at hand, by all means look up its description at once—and you will have formed in your minds some idea as to its destructiveness.

Victor Hugo's "Tollers of the Sea" tells us that, "It is difficult for those who have not seen it to believe in the existence of the devilish. Compared to this creature the ancient hydras are insignificant."

This devilish is insignificant when compared to the few Wall Street capitalists who are practically operating mail order houses and have control of the foreign-owned chain stores that are spreading with such rapidity.

They lead you to believe, with the aid of beautiful pictures, that their capital resources enable them to reduce the cost of living for you. By the aid of your very generous response they flood our country with goods produced or manufactured in foreign lands, and by doing so are successfully enhancing their size of their purses.

It is not necessary to look any great distance to see how they are gradually driving out wholesalers—men who biased the trail for them when this country was nothing but a wilderness. They are also seen driving out brokers, salesmen, delivery men, and finding down farmers, ranchers, dairymen, poultry raisers and laying waste our mills and factories.

Has the result of this elimination been beneficial to you? Is your dollar buying more for you today than it was prior to this eliminating business? You know it isn't. I don't have to tell that. Who do you suppose is getting that saving which they profess to be enacting? They are, of course—but they don't tell you about it. Why should they? That would surely spoil their plans. And why kill the goose

The CHRISTMAS STORE

For the Children

Your greatest opportunity of the year to bring happiness to others. This store is a heaven of delight for the children with its wealth of Toys of all descriptions, dolls, etc., at the most reasonable prices. We invite you to hurry along in the few shopping days remaining.

Here are a Few Suggestions:

Mechanical Toys, Wagons, Dolls, Tricycles,
Toy Sewing Machines, Embroidery Sets
for Girls, Sets of Dishes, Kiddy Cars,
All kinds of
Carpenter Sets, Sleighs, Planes, Aeroplanes,
Erector Sets, Boys' Automobiles, Boxes of
Soldiers, Boots and Skates. Horse Shoe
Games, and many others.

**Christmas
Gifts
for
all**

For Older Members

of the family, for wife, husband, distant friends, for anyone no matter their age, we have something that would make an appropriate present. We make a few suggestions from the hundreds of suitable articles our store contains.

Here are a Few Suggestions:

Fancy Trays, Rogers Silverware and Cutlery,
Betty Brown Beautiful Fancy Teapots,
China-ware of all descriptions.
Wedgewood China by the piece from \$1.00 to \$3.50
Special on Coffee Spoons, half dozen for \$1.00
Electrical Appliances of all kinds make ideal gifts. Travelling Cases for young ladies make splendid presents.

Store open till 9 p.m. on Sat., Mon., Tues. and Wed.

Coleman Hardware Co.,

Stores at Coleman and Blairmore

that lays the golden eggs?

Do you realize that unless you wake up to these things, before another decade you will have a monopoly on your farms, ranches and almost on your very bodies?

Slavery before the Civil War in the United States was nothing compared to what these monopolies will be. And if you persist in contributing to these

devilish you can be sure that they will get you in the end.

There is only one solution to the problem, and that is, to be loyal to your own communities. Renounce the fallacious theory that extermination of middle men makes for prosperity. Use your heads and your hearts to help each other. Look out for the small man more and up to the big bug less.

Quit chasing bargains—quit looking to these octopuses—be self-sustaining and self-contained.

My only wish is that I could take you all to some of these communities that have reverted to the old fashioned community spirit—the moment you step into the town you can see prosperity grinning at you around the corner of every building—citizens walk-

ing down the street with a contented look upon their faces. The only thing lacking is the old-fashioned hitching posts on the streets.

When the townspeople propose anything for the benefit of the community every man, woman and child for miles around give it their whole-hearted support.

The result is—no matter what the

undertaking, it is a howling success. People from every surrounding district and village turn out—money is spent in that locality—that makes for prosperity.

Everyone seems to be endowed with that feeling of "live and let live." It must be a pretty good feeling at that judging from the effects it has.

WORLD HAPPENINGS
BRIEFLY TOLD

The latest survey shows that only 715 persons in the United States and Canada are both deaf and blind.

The Department of Interior has purchased Flower Port Island in the Georgian Bay for national park purposes.

George Eastman, philanthropist, has made a gift of \$100,000 for the establishment of a dental and orthodontic clinic for school children of Paris.

The United States coastguard made an all-time record in life-saving last year, the number of persons rescued being 6,004.

In searching the human heart to find why its failing is the prime cause of death, the United States government will spend \$10,000 next fiscal year.

Jack Miner, well known naturalist, is experimenting at his game sanctuary to see if Ontario's marshes can be used profitably for raising bulfinches.

It is reported from Hamburg that Thomas A. Edison has accepted the honorary membership offered him by the German "Erfindershaus," an association of inventors.

Official figures of the national census taken last October, give Japan a population of 64,447,000, which 4,017,000 represent gains during the last five years.

Jesse Ryne, whose home is in Quebec, has been brought out from the shores of James Bay, where he was found in a denuded condition, a victim of the northern hardships.

Port Dover, center of fresh-water fishing on Lake Erie, aims to become the hub of the world's first freshwater, genuine sockeye salmon industry. This fish has started to appear in the lake.

"Rocket" planes, 20 years hence, will carry tourists from America to Europe in three hours at less than the present fare for a 20-hour train journey, it was predicted by Fritz von Opel, of Germany.

Leaders of the Brazilian Agricultural League have planned for some sort of an approachment with Russia, whereby Sao Paulo coffee growers would be able to exchange their surplus for Soviet wheat.

May Reduce Crossing Accidents

Bright Colors Will Distinguish C.N.R. Self-Propelled Cars

With a view to minimizing local crossing accidents, the Canadian National Railways will, during the winter months, paint the front ends of eight self-propelled cars a bright yellow and red as a means of attracting the attention of motorists. A. McCowan, assistant general superintendent of car equipment, has announced. These cars, which replace steam locomotives in some sections of the system, are equipped with bells and whistles but are sometimes mistaken at first glance for an ordinary railway coach.

Cars on western region to make their appearance in this new dress are on Winnipeg to Sourthern service, Saskatoon and Regina, via Dunblane and Moose Jaw and two more running between Victoria and Keesling on Vancouver Island. The transition in coloring is being done so there will be no unnecessary tie-up in service.

Canadian Dollar At Par

Has Been Above Par In New York Money Market Since Last August

The Canadian dollar was quoted at par on the New York money market Dec. 1st, the lowest figure reached since August 20 last. Quotations on the dollar carried above par last June and it has remained at a premium of a fraction of one per cent. almost constantly since that time.

Bankers attributed the quotation to the seasonal movement of funds across the border requiring large purchases by Canadians of United States funds.

Mexico is considering the reduction of taxes and freight rates.

"Yes, you surely don't expect me to send the fleas round here?"—Lustig Kolner Zeitung, Cologne.

W. N. J. 1898

Carbon Monoxide Poisoning

A Timely Warning For The Prevention Of Unusually Deadly Disease

Owing to the comparative frequency, lately, of deaths from carbon monoxide poisoning, Honourable F. D. Munroe, M.D., Minister of Public Health, announces that an active campaign is being undertaken by the Saskatchewan Department of Public Health, with the object of effecting a province-wide dissemination of knowledge regarding the perils which are constantly present in connection with this gas. The appeal will be directed particularly to motor car owners, who perhaps are not sufficiently cognizant of the dangers involved. In addition to publicity by means of the press, the campaign will include a wide circulation of pamphlets dealing with the matter, the co-operation of the Department of Highways has been assured, and a warning pamphlet of information will accompany each set of motor license plates issued in 1931. This pamphlet will also be distributed to the public garages of the province.

Carbon monoxide is a colorless, odorless and tasteless gas. It emanates from automobile exhausts, gas ranges, illuminating gas appliances, gas generators and coal-burning furnaces and stoves; it is the result of the incomplete combustion of gasoline, gas or oil. With the approach of winter, and the possibility of less adequate ventilation, the danger of carbon monoxide poisoning from motor cars increases; and the same may be said of furnaces and stoves. The precautions which should be taken against the insidious action of carbon monoxide gas when a motor is permitted to run in a garage cannot be over-emphasized. Owing to its being colorless and odorless, it takes its deadly toll often without warning of any kind to its victims.

The exhaust gas from internal combustion engines contains carbon monoxide in percentages ranging from a fraction of one per cent. to seven per cent. or even higher, the variation depending upon the proportion of air and gasoline in the mixture burned. The concentration of carbon monoxide increases with the proportion of gasoline; that is, with a rich mixture, such as might be used in cold weather, the attendant risk would be correspondingly great. A rough estimate of the volume of carbon monoxide which an automobile would produce would be one cubic foot per minute per twenty horse-power. This would be sufficient to render the atmosphere of a single car garage deadly within five minutes, if the engine were allowed to run with the garage doors closed. In streets where traffic is congested, the content of carbon monoxide rises to about one hundred parts per million of air, which is enough to cause a slight headache. A person breathing this gas in mild concentration may experience a slight dizziness.

Mexico Banishes Death Penalty

New President Has Also Done Away With Jury System

Capital punishment is definitely banished under the new penal code for the federal districts, Mexico City, approved by President Ortiz Rubio.

The president also announced he was taking steps to banish the death penalty in the army.

The jury system also is abolished under the new code, duelling is classed as a punishable crime, physicians are made liable for punishment for errors involving the death of a patient, and vagrants are subjected to detention and isolation.

Russian Lumber For Britain

Shipments Have Been Restricted To 500,000 Russian Standards

Shipments of Russian lumber to Great Britain have been restricted to 500,000 Russian standards for the present year and 600,000 standards for 1931, instead of proposed shipments of 750,000 and 850,000 standards respectively, the Department of Trade and Commerce at Ottawa has been advised. Such restrictions have been agreed to following negotiations between Russian sellers and the central soft wood buying corporation, comprising about seventy of the principal lumber importing houses of Great Britain.

The World's Sheep

There are estimated to be 700 million sheep in the world, equal to about one for every three people. Russia leads with 116 million, with Australia next with 90, and the United States has about 47 million. The world's wool clip is some 3,500 million pounds.

A Wealth Of Knowledge

Cambridge University has now over its twenty miles of shelves a million and a quarter books, nearly 200,000 maps, and over 100,000 manuscripts.

Hon. F. D. Munroe, M.D., Saskatchewan Minister of Public Health and Minister in charge of The Child Welfare Act.

at first, followed by a throbbing in the temples, headache, a feeling of sleepiness, fatigue, weakness and nausea. The mind becomes dulled, and it has been proved that although in some cases the individual may realize the danger of his position, he may yet be unequal to the exertion of opening the window or reaching the door.

It is important, therefore, that every person who owns, drives, or in or repairs a car, or who is employed in a garage or repair shop, should realize the dangers which attend the presence of carbon monoxide gas. As already stated, the same menace accompanies the use of private lighting plants or gas engines of any kind in basements or elsewhere. Under no conditions should an automobile or an engine be allowed to run for any appreciable length of time in a garage in a repair shop, or in a confined place, without the doors being open, a proper ventilating system being employed, or without the exhaust being connected with the outside by a direct air-tight outlet.

The occupants of a closed car should always have the windows lowered at least three inches, as it is possible that the exhaust gas may escape into the car and gradually overcome them.

When a person is found overcome by carbon monoxide poisoning, a doctor should be summoned at once, and in the meantime the victim should be placed in a warm, well-ventilated room, with arms outstretched. While the doctor's arrival is being awaited, artificial respiration should be employed.

The fundamental essentials of safety lie in foresight and caution; these are the most effective weapons in dealing with what has been termed, "the invisible peril of the motorists."

Believes Glass House Healthy

Bournemouth Woman Has No Faith In Ordinary Type

Miss Gertrude Fitzgerald, of St. James Square, Bournemouth, England, believes, at the age of 84, that a glass house is the healthiest place to live in.

Four years ago she lost faith in houses of brick and had a glass house built in the garden. She has lived in it ever since and declares she is better in health and happier in disposition.

Recently a reporter talked with her in her greenhouse home while the rain poured down on the little place with light and warmth.

Miss Fitzgerald told him she had always been delicate and had suffered from typhoid, diphtheria, sore throats and tonsillitis.

"Now instead of always moaning and grumbling and fearing illness, I am better in health than ever I was. I can walk seven miles a day without feeling tired, and I am more fit at 84 than I was at 18.

"This is the secret of being able to do without doctors, and I am sure if people would only live in glass houses there would be none of the dreadful complaints we hear of nowadays."

Cooking is done on an olive and candles are used for lighting.

Partridge Going Eastward

Hundreds of flocks of Hungarian partridge have been seen in western Manitoba this year, convincing evidence that these birds are moving eastward out of Saskatchewan and Alberta. Reports as to the observations on the movements of these birds have been kept here by B. J. Hales, principal of the Normal School, and an authority on bird life.

Railway Mileage In Canada

The mileage of steam railways operated in Canada is 42,861. During 1929 there was a net increase in the miles of railways operated of 386 and in total track mileage of 411 miles.

Proved Economic Value

Revenue From Graf Zeppelin's Flights

This Year Paid Air Expenses
The Graf Zeppelin in 1930 made a total of 155 flights covering a distance of 14,375 miles and carrying 6,278 passengers and 2,200,000 pieces of mail and freight, weighing 12,166 pounds. The ship now will be shored up in her hangar and her gas removed, after which a thorough inspection test of all her parts will be made. On the basis of this study her officers expect it will be possible to estimate the normal length of an airship's career.

The sale of passenger tickets for long and short flights covered the cost of gas, salaries, insurance and depreciation, thus indicating the economic value of Zeppelins as traffic carriers.

Among the longer flights it is hoped to make in 1931 is a North Pole flight. This, however, depends largely on the economic situation. While the Graf Zeppelin is being overhauled, a new Zeppelin, the LZ-128, will begin to take shape in a new and larger hangar beside the Graf Zeppelin's shed. The construction of the new Zeppelin has been delayed by a change-over to permit its inflation by helium after the R-101 disaster.

Strange Discovery In Alaska

Giant Lizard-Like Creature Preserved In Ice Since Prehistoric Time

Reports received from Valdez, Alaska, said the carcass of a giant lizard-like creature, with fur in perfect condition, had been found on Glacier Island near Cordova.

The strange creature, reported to be 42 feet long, including a tail measuring 16 feet, was believed to have been preserved since prehistoric times by being encased in ice in the upper reaches of the Columbia glacier. The ice was believed to have worked its way gradually to the sea. The head was reported to be six feet long and the body 20 feet in length.

British Air Craft Marvel

Rival To The German DO-X Is Now Under Construction

Britain's rival to the German DO-X flying boat, work on which has just been started, is expected to be the finest in the world. The wings of the new monoplane will measure 160 feet from tip to tip, and the huge hull will have two decks containing five passenger saloons which will accommodate 50 passengers and have sleeping berths. The craft will weigh 33 tons. It will be able to fly 1,000 miles at more than 120 miles an hour. The furnishings will be luxurious.

Had To Be Doubled

The haggard-looking man got into conversation with the happy, carefree bachelor on their train journey to the North.

"Yes," said the former. "I'm the father of six daughters."

Then you and your wife have six mouths to feed," replied the bachelor.

Haggard face shook his head.

"No; we have 12," he returned.

"They are all married."

SUNDAY SCHOOL LESSON

DECEMBER 21

CHRISTMAS LESSON

Golden Text: "There is born to you this day in the city of David a Saviour, who is Christ the Lord." — Luke 2:11

Lesson: Luke 2:1-20.

Explanations and Comments

Beginning the Lesson. — Our first and last lessons of the year are Christmas stories, the only ones told us in the Gospels. From which Gospel was our first lesson taken? Where is our story today found? Let us never forget that the study of the three Wise Men and their bringing of gifts to the Christ Child is in the Gospel of Matthew, and the beautiful song of the angels announcing the birth of the Christ to the Shepherds is recorded by Luke.

A poet, John Erskine, tells our story as in the words of one of the Shepherds:

Out of the midnight sky a great dawn broke
And a voice singing flooded us with song.

In this city was He born, it sang, A Saviour, Christ the Lord. Then while I sat

Slavering with the thrill of that great cry,

A mighty choir, a thousandfold more

Surprised, Suddenly sang, Glory to God, and Peace—

Peace on the earth; my heart, almost

By that swift-voiced melody, would harden

Speechless we waited till the accustomed

Tone came, Gave us no promise more of sweet

Surprise; Then scrambling to our feet, without a word

We started through the fields and into the

Child.

When the Angels Depart.—There is

always one duty when the angels depart. We can do the thing they told us to do. Those shepherds on the plains of Bethlehem were wise men.

They might have said: "We have had a lovely vision, beautiful while it lasted, but it was naught save a dream. Let us go back to our flocks."

They might have said this, but they did not. They were like Saul of Tarsus, who with his eyes was fixed on the vision in the heaven.

They were like Saul of Tarsus, who with his eyes was fixed on the vision in the heaven.

They were like Saul of Tarsus, who with his eyes was fixed on the vision in the heaven.

They were like Saul of Tarsus, who with his eyes was fixed on the vision in the heaven.

An Epic Of
The Far North

Gripping Story Recently Released By Department Of The Interior

A great story has recently been released by the Department of the Interior. It is a true story, being the day-by-day experiences of W. H. B. Hoare as he rambled about the 15,000 square miles that make up the Thelon game sanctuary in search of musk-oxen. The sanctuary is east of Great Slave Lake along the Thelon and Hanbury Rivers.

Canada and Greenland are the only countries in the world where the musk-ox exists in its native state and, as these animals are being exterminated much as the buffalo were years ago, the Dominion Government set aside this sanctuary. Musk-oxen are about the size of the small Welsh and Scotch cattle and look like buffaloes. Mr. Hoare, with an assistant, A. J. Knox, was sent out by the Northwest Territories branch of the department to see how they were getting along. He spent most of 1928 and 1929 in the north.

The report Mr. Hoare made to the minister is a gripping narrative. Much latter-day fiction deals with life in the north, but it is doubtful if any of it exceeds in interest the modest, matter-of-fact records of what Mr. Hoare and his assistant did, the lives they led, the dangers they encountered and the hardships they endured. It gives some idea of what men suffer, often alone and unnoticed, to serve Canada.

After a description of the journey to the Thelon sanctuary, he tells of a blizzard which hit himself and his companion on May 26, 1928. After it was over they proceeded and discovered a bed of peat between Ford Lake and Artillery Lake. The bed was frozen but some of the peat they dug up burned well in the camp stove.

The diary tells of the long tramps the men took, their contact with caribou and their winter spent at Reliance. Early in March they were back in the sanctuary. A cabin had been erected by Mr. Hoare and Mr. Knox, and while Mr. Knox remained bringing supplies, Mr. Hoare started out alone on the trail.

American Pompeii

Remains Will Be Sought By Expedition In Arizona Next Year

The ruins of an "American Pompeii" will be sought in Arizona next year by an expedition of the University of Pennsylvania Museum.

This was disclosed by Dr. Harold S. Colton, professor of anthropology at the university and a member of the expedition the museum has had for several years in the field near Flagstaff, Ariz.

The ruins, Dr. Colton said, are believed to lie beneath a layer of black basaltic sand 18 to 20 feet thick, which in turn is overlaid by centuries of drift sand deposits.

Tests indicate that primitive men have slightly keener eyesight than civilized white men, but in the case of hearing the situation is reversed.

CHAPTER VI.—Continued.

Mary Maxwell's lips lightened as she replied: "So I gathered before I left. You see, Johnny, just as Julie arrived with the tea wagon (she ran into that old rookery of Selma Smith's, my dear, and almost smashed the tea cups, exquisite egg-shell china, too), Gay came out under the trees with the babies. She certainly made a pretty picture, and I caught Mr. Halliday watching them with a different expression in his eyes. He looked quite human, and said: 'Why not ask Mrs. Hastings to join our party, Angela?' But his wife hurried in a way that I should call insulting, and answered: 'With that duty nursery at her heels?' Then she looked at me and added apologetically: 'Those children are so charming, of course, but any child around a tea table is so—messy, don't you think?' And she handed me a glass of iced tea, and the most wonderful embroidered napkin I ever saw, and deliberately turned her back upon that group across the hedge."

"What did Halliday do?"

"He excused himself and went into the house. It was evidently what she wanted. She began questioning me then, and in three minutes I understood why she'd decided to be gracious."

"She wanted to find out about Nick Hastings!"

"John Maxwell, here's my verdict: that woman is what Tom, Jr. would call a vamp!"

"I am afraid," replied her husband, his eyes twinkling, "that you've been seeing too many movies. What did she ask you about Nick?"

"She began by saying that he was charming, and hinted that she understood his marriage had been too hasty. She used all the tact she possessed, John, and her eyes looked like a baby's, but I saw what she was up to. It was a ploy, she said, for a man to marry so very young. Said: 'They were apt to end unhappily,' but then, in a little tone which such entanglements were not uncommon, and we should be charitable—"

"Good thunder!" broke in John Maxwell, unable to control his indignation, "she was implying—"

"I think she was, though she was extremely subtle. I was so furious that I spit tea on that exquisite napkin. I told her I thought she had used the wrong word—that there was no entanglement about it—that the marriage was hasty merely because Nick was starting on a long vacation; and at the last minute found that he didn't wish to leave Gay behind. That's all. I left as soon as I decently could. She was sweet as syrup, and urged me to be neighborly; but I don't believe she'll return my call in a hurry! If she does, I'll have Katy tell her that I'm 'relaxing'!"

John Maxwell chuckled.

"I fear, my dear, that you won't relax till you reach the other side of Jordan; but anyway, you've verified my own opinion."

"If you had an opinion," responded his wife with spirit, "what on earth was your object in making me chase down on Elm Street in my best clothes, with the thermometer eighty? Still—to see John Nips with her bobbed hair and black mohair, was worth the effort! Now, John Maxwell, it's your turn to explain. I confess I'm curious as to why

In Winter

Outdoor work and play often give rise to sprains and frost bites. Keep a bottle of Minard's by you to rub on the affected parts.

MINARD'S
"KING OF PAIN"
LINIMENT

W. N. L. 1668

you're interested in the woman unless Nick—

"An usual, Mary," interrupted her husband, "you've hit the nail on the head. I want you to tell me I'm an old fool. I can't really believe—"

He went on to relate his fears, which Mary listened with no interruptions. His first thought was "looking quietly when he was through."

"Well," he questioned.

"I was trying to put myself in Nick's place," she answered slowly.

"You know, John, I'm rather good at that. My first thought when hearing anything surprising, is how I'd act myself; but I try not to speak till I've viewed it from another's standpoint. I learned that trick when the children were growing up. Sometimes they'd want to do things I didn't approve of—things I wouldn't have done in my own girlhood. It would be on the tip of my tongue to forbid it, and then I'd say to myself: 'May, these youngsters are of another generation. Their standards are different from yours. Times have changed. And I'd put myself in their shoes and see how I'd have felt twenty years before if I'd been forbidden to do things that all my companions were doing. It wasn't always easy, but it paid in the long run. Our boys and girls never did things on the sly; and if I decided my way was best I could make them see it, because they knew I wasn't hasty.'"

There was unveiled admiration in the look that Maxwell gave his wife.

"But," he hesitated, "there's one thing that doesn't change with the generations, Mary, and that's the fact a man must be true to his own woman."

"I know; but do you think for a minute that Nick is untrue to Gay, even in his thoughts? I don't. I know the boy too well. He'd be as horrified at the idea as you or I. John. But for all that, I don't say he's not in danger with a vampire only across the hedge! Nick's younger than his wife, and for all his charm he's unsophisticated. He's lived his life right here; and though some of our friends pretend that Bakersville is the hub on which the universe revolves, we know it isn't. It wouldn't be surprising if a woman as subtle as Mrs. Halliday could puzzle Nick for a time. He married so young, Johnny; and for the last few years he's had so little change. That woman would not uncharitably stir his imagination. We've never had quite her like in Bakersville."

"Then you don't think he an old fool?" asked John ruefully.

"No. I wish you could send Nick off on a long vacation."

"But I can't just now. Besides, it's Gay who physically needs a change. She's got shadows under her eyes, and her pocket was mended with a safety pin. She apologized about it, but—"

"M-m," came thoughtfully from Mary Maxwell. She rocked quietly for a while, visioning a slender figure, silken-clad, with a marvellous coiffure above innocent blue eyes. She stirred uneasily; then said, "I see Gay tomorrow night will be passed along; and do you remember the winter Janey was a baby and I so miserable, that Miss Rebecca Eaton came every week and took my mending home? Mercy! the help I was! I was too tired to know whether my pockets hung by a thread or not; but if you minded, Johnny, you never said so. Looking back, dear, I think you were rather wonderful."

John Maxwell reached for his wife's hand and squeezed it hard.

"You were rather wonderful yourself," he replied gently; then his face broke into an amused smile. "Besides, my dear, there was no vampire in the next yard!"

CHAPTER VII.

It was next morning, just after Gay had put her baby down for his nap, that she heard an unaccustomed step in the entry, and looking up beheld Simeon Bartlett standing by the door. Her face broke into a smile of welcome that was reflected in the twinkling blue eyes of her old friend. He dropped his gigantic hat, followed by emphatic kisses on either cheek.

"Where did you come from?" she asked breathlessly extricating herself from his embrace. "Oh, the old trick Nick was advising me to pick up and make you a little visit."

"Nothing would suit me better, missus," he replied, beaming. "The old house got so lonesome I couldn't stand it a minute longer, so I up and took an early train. Had some business with John Maxwell anyway, and used that for an excuse to get away; but my real business was to have a look at you and the kiddies. Ain't forgot their Uncle Sim, have they?"

"I can't vouch for little Nick," Gay answered, "but Sonny'll be rejoiced to see you. He's in the sand pile playing. Sit down, Uncle Sim, and cool off. It's terribly hot for May."

"Can't sit down now a minute," declared Mr. Bartlett as she led the

CHAPPED HANDS
Chilblains, Frost Bite
Quickly Healed by Zam-Buk

way into the living-room. "I got to see John Maxwell before noon. Though I'd come to this way and leave my grip—that is, if it's convenient for you to put me up."

"Did you think we'd let you go to the hotel?"

Gay laughed, but the old man noticed that she sat down quickly as if she were very tired, and that her eyes were shadowy. This wasn't the Gay he remembered, and his face clouded.

"Ain't you feelin' real smart, dearie?" he questioned.

She straightened up and smiled.

"Now don't you begin worrying about me! I'll be all right in no time. I lost a lot of sleep while the children were laid up, you know, Nick helped all he could, but there are some things that no one but Mother can seem to manage. Besides, the first hot days take all my vitality; and since the baby came I haven't had my usual amount of spunk. Don't say anything to Nick about it, Uncle Sim. He has enough on his shoulders anyway. Sometimes I wonder—"

(To Be Continued.)

Humane Society Awards

Many Westerners Receive Bronze Medals For Heroic Deeds

At a meeting in Hamilton of the board of investigation of the Royal Canadian Humane Association, attended by Captain George J. Guy, A. G. Bain, M. J. Overell, F. T. Leaveland and H. E. Waterman, the following awards were granted:

Brown medals: Edwin M. Gordon, Webb, Sask. for rescue of Robert Freoborn, Jr., and Robert Freoborn, Jr., and Reggie Chamberlain, from drowning in Swift Current Creek, Webb, Sask. July 13.

Robert R. Gordon, Webb, Sask. for rescue of Robert Freoborn, Sr., and Robert Freoborn, Jr., and Reggie Chamberlain, from drowning in Swift Current Creek, Webb, Sask. July 13.

Parchment certificates: A. T. Speed, 237 Kingston Street, Victoria, B.C., for rescue of E. Moires from drowning at Ogden Point Docks, Victoria, B.C., July 26, 1928.

Charles Mack Ramsey, 3512, 14 Street, S.W., Calgary, Alberta, for attempting to rescue Raymond Leonard Jago from drowning in the Elbow River, Calgary, Alberta, July 9.

Godfrey Hansen Weller, 1514 28th Avenue, S.W., Calgary, Alberta, for attempting to rescue Raymond Leonard Jago from drowning in the Elbow River, Calgary, Alberta, July 9.

Alma McLeod, Brandon, Man., for the rescue of Mrs. J. A. Dunn from drowning in Sandy Lake, Brandon, Man. July 19.

Marjorie Carleton G. Moore, Pangnirtung, N.W.T., for the attempted rescue of native Koodloo from drowning at Pangnirtung, N.W.T., July 16, 1930.

Mrs. Robert Walker, Blue River, B.C., for the rescue of Evelyn Massey from drowning at Elbow Lake, Blue River, B.C., August 23, 1929.

Trans-Canada Phone Line

All Canadian Telephone System To Be In Operation By New Year

Work has started on the building of the British Columbia link of the Trans-Canada Telephone Line. A direct system through the Crow's Nest Pass to Alberta will be provided to replace the present system of routing telephone calls between British Columbia and other parts of Canada across the United States via Seattle. The proposed system will cost \$1,250,000 and will involve some 655 miles of telephone line, 125 miles of which has already been built.

The principal Canadian telephone companies and provincial systems are co-operating in the trans-Canada project and it is expected that an entirely all-Canadian telephone connection between Halifax and Vancouver will be possible by the end of next year.

Cheapest Of All Oils.—Considering the qualities of Dr. Thomas' Electric Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada from coast to coast and all country merchants keep it for sale. So, being easily procurable and extremely moderate in price, no one should be without a bottle of it.

Shipments Of Wheat

From August 1 to October 30, 1930, shipments of wheat from Canada totalled 75,240,000 bushels to 26 countries and shipments of flour in the same period totalled 2,175,878 barrels to 63 countries. The British Isles was the largest buyer of wheat and flour having taken 49,807,595 bushels and 774,811 barrels respectively. Germany was the second best customer for flour with 358,215 barrels.

Education On Canadian Matters Is Advisable

Ontario Postmaster Thinks Average U.S. Citizen Has Plenty To Learn

The average United States citizen needs enlightenment on matters affecting Canada, and it is the duty of United States publications to furnish this enlightenment, in the opinion of R. J. Dunnmore, postmaster, St. Thomas, who recently wrote to the National Geographic Society as follows:

"Re renewal of my fees for the National Geographic Society. I beg to advise you that I have decided to discontinue my membership. I see no consistency in continuing to send my good Canadian money to the United States, when I have had the same good Canadian money scornfully, even insolently, refused acceptance in Boston, Los Angeles, El Paso, New York and other United States centres; at a time, too, when Canadian money was rated above par."

"I might suggest that the National Geographic Magazine with its wide scope of information, do a great service to the people of the United States by enlightening their appalling ignorance of Canada. The average United States citizen appears to regard Canada as a land of perpetual snow, inhabited by Indians and French-speaking people. You might tell them that in the section of Southern Ontario, where I live, we grow as fine a grade of tobacco as is raised in Kentucky; that our farmers are growing rich raising tobacco. Also, we grow peaches and grapes equal to anything grown in California. The very barn yards of our farmers are lighted by electricity. Incidentally, you might tell them that Canada exports almost all of its fresh water on the globe, and that there is room in the one Province of Ontario (there are nine Provinces) to set down four of the United States, namely, New Hampshire, Connecticut, Rhode Island and New Jersey (I am, of course, Gen. Ben Butler correctly). When we see yeathy and supposedly educated United States motor tourists coming through Ontario in mid-summer carrying heavy furs, snow-shoes, toboggans, and asking if there is much danger from wild animals (this is not a mere newspaper yarn—it is true); when they land at Windsor, Ontario, and ask the nearest policeman to be directed to (Windsor Castle), then I feel I will admit to the general public of the United States should be taught in their schools a little of something else besides the wonderful importance of the great United States of America."

"Travelling in the United States, a well educated Washington, D.C., man, was horrified when I pretended that I didn't know who Herbert Hoover was. As a matter of fact, I could read old him the history of the Hoover, or more correctly, Huber, family right back to his German grandfather in Hamburg. In turn I asked him who Mackenzie King was (at that time Premier of Canada). He didn't know; had never heard of it. Then I asked him, why should I know anything about President Hoover?"

"Will you kindly remove my name from the membership list, and accept my thanks for the very courteous treatment accorded me by your office in the past."

(By Betty Barclay)

Palpitation Of The Heart Nerves Were All Gone

Miss Rose Griffin, Ashburn, Man., writes:—"About five years ago I was troubled with palpitation of the heart, caused by a shock, and my nerves were all gone, and I could not sleep. I read about Milburn's Heart Nerve Pills and decided to try them. After I had taken three boxes I was feeling fine again. I think they are a wonderful remedy, and wish all others who suffered as I did would give them a trial."

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Price 50c a box

Abyssinian Ruler Ambitious

Wanted Unity Of Empire and Proposed Marriage To Queen Victoria

Rulers of Abyssinia are ambitious, according to Prof. S. A. B. Mercer, who lectured recently in Trinity College Library, Toronto.

In the days of Queen Victoria, Professor Mercer told his audiences, the Abyssinian Emperor conceived the idea of uniting the two empires. He wrote to Queen Victoria asking her hand in marriage. The British queen did not reply and for some years thereafter the thwarted ruler satisfied his disappointed affections by mistreating every white man he could lay his hands on.

In more recent years, the speaker recalled, the Emperor and six kings of Abyssinia had toured Europe. One of the kings was immensely popular by a Rolls Royce he asked in London, England. He also saw a French car which appealed to him. He bought both and returned with his two cars and a mechanic. But he overlooked the fact that there were no roads in his mountainous kingdom. However, he solved the problem by having a road built around his place on which he still drives his two high-powered cars.

Professor Mercer argued against the popular belief that races do not change in color. The Jews of Abyssinia, he pointed out, were black. Yet they had never inter-married with the black race. In thousands of years of living in the country they had completely changed in color, though their features were still those of the Semitic race from which they had sprung.

Recipes For This Week

(By Betty Barclay)

CHESTNUT PUREE

Either the large French chestnuts or the small native kinds can be used for this tempting soup.

- 1 quart chestnuts.
- 1 pint white stock.
- 1 pint milk.
- 2 tablespoons butter.
- 2 tablespoons sugar.
- Salt and pepper.

Shell and scald the chestnuts. Heat the stock and milk, and thicken with the butter and flour. Add seasonings. Boil the chestnuts until soft and put through a potato ricer. Add to soup. Heat well.

SAVORY BUTTER SANDWICHES

- 2 teaspoons lemon juice.
- 2 teaspoons anchovy paste.
- 2 teaspoons mustard.
- 4 teaspoons Roquefort cheese.
- 4 tablespoons butter.

Put all ingredients into a bowl; beat until smooth and creamy; spread on crackers; cover each with another cracker, and use with cocktails or simple salads.

A Foe To Asthma. Give Asthma half a chance and it gains ground rapidly. But give repeated treatments of Dr. J. D. Kellogg's Asthma Remedy and it will fall back even faster. There is no half way measure about this remedy. It goes right to work and drives asthma out. It reaches the most breathing passages and leaves no place for the trouble to lurk. Have it by you for ready use.

Manitoba Jewels

Jewellery is being fashioned from semi-precious stones found in the Winnipeg River district in Manitoba. These include amethysts, moonstones, jade, rose quartz, agate, garnet, beryl, white beryl and sapphires. These are being mounted in Manitoba gold and are proving very attractive to visitors to the province.

B.C. Applies For British Isles

Six ships recently took large consignments of British Columbia apples to the British Isles. The apples were brought from the Okanagan Valley, the principal apple growing district of British Columbia, in 40 freight cars.

Clay As Purifier

Added to their many other uses some varieties of Canadian clay are employed for the purifying of lard and oils.

New York is the leading manufacturing city in the United States.

Minard's Liniment for all Pains.

Little Helps For This Week

"Let him do to me as seemeth good unto him."—2 Samuel xv. 26.

God never would send you the darkness.

If he felt you could bear the light: But you would not cling to his guiding hand.

If you were always bright, by and by you would not care to walk by faith.

So He sends you the blinding darkness.

And the furnace of sevenfold heat: Till the only way, believe me, To keep you close to His feet.

For His always so swift to wander.

When our lives are glad and sweet.

There is a bird, it said, that will never learn the song his master will have him sing while his cage is full of light. He listens and learns a snatch of this, a trill of that, a polyglot of all the songs in the grove, but never a separate and entire melody of his own. But the master covers the cage, makes the way all dark about him, then he will listen to the one song he sets to sing, and try and sing it until at last his heart is full of it; then when he has caught the melody, the cage is uncovered.

—Robert Collyer

International Boundary

Much Work Is Entailed In Keeping the Boundary Clearly Marked

To maintain in a state of effective demarcation the 5,500 miles of international boundary between Canada and the United States is one of the duties of the International Boundary Commission, the Canadian section of which functions under the Survey Bureau of the Department of the Interior. This work involves the re-opening of the boundary vista through wooded areas, the repair of deteriorated monuments or the erection of additional monuments when required, the marking of the boundary on international bridges and in tunnels, and the revision of the boundary maps.

Cooking By Solar Heat

Day May Come When Fire Will Not Be Necessary

The bright day may come when Mrs. Housewife will not have to bend over a hot fire to cook that steak for supper. She'll just hitch her to the sun and let it go at that. That, with a little stretch of the imagination, was the hope held out by Dr. C. G. Abbot, secretary of the Smithsonian Institution, in an address before the Royal Canadian Institute at Toronto. Cooking has been carried on with great success by use of solar heat, he said, adding that there is great hope that engines driven by power from the sun may be a practical outcome.

Opposed To Modernism

A man who was opposed to the inroads of modernism, and distressed by the use of telephones and motor cars, Edward C. Wilmore, 83-year-old proprietor of the Tailors' Club Trimming House, at 95 1/2 Church Street, Toronto, is dead. In the death of this quaint man of another age, who lived a life of absolute solitude, the city loses one of its most interesting characters.

READ OF A CASE LIKE HER OWN

Decided to take Lydia E. Pinkham's Vegetable Compound

Moncton, New Brunswick.—"Before my last baby was born I was very weak, nervous and dispirited. I read an advertisement in the paper about a woman who had been like me so I took a bottle of Lydia E. Pinkham's Vegetable Compound. I took three bottles and it carried me safely through that time."

I have three children to care for and I feel well and strong. I have told two other women about your medicine. Mrs. GUS ABERNATHY, 82 Albert Street, Moncton, New Brunswick.

Powell's Jewellery Store Entered By Burglars

Lack of Night Patrol for Burglary and Fire Brings Comment from Store Owners

After midnight on Thursday G. R. Powell's store was broken into by a thief or thieves boring the woodwork around the front door lock with a brace and bit. Articles stolen include watches and various small articles which could easily be carried away.

It is suspected it is the work of local thieves. The night previous the glass on the door had been scratched with a cutter, which apparently was not sufficiently keen to cut away the glass. The theft was discovered at 8:30 a.m. on the arrival of Mr. Powell. The lock was lying outside the door, which was closed.

On Friday the town and provincial police constables were investigating and making a check-up on the movements of suspected persons, which may throw some light on the matter.

The incident again demonstrates the necessity of a night policeman both for fire protection and burglary, for under present conditions anything could happen between midnight and daylight without being discovered till hours afterwarde.

Blairmore Won The First Hockey Game

Coleman's first hockey game this season played on Wednesday at Blairmore showed a score of 7-4 in favor of Blairmore. As the local boys had not even practised this season, the play was loose and ragged. The new forward line of young players recruited from the Juniors, Fraser, Pattinson and Oliva, showed up splendidly, and are a strong addition to the team.

With several of Blairmore's players of recent years having gone to other places, they will be more on a par with the rest of the Pan teams, and some very closely contested games are looked for this season.

Buy goods from the stores and vertising.

COLEMAN PLAYERS APPOINT OFFICERS AND HOLD SOCIAL

An enthusiastic meeting was held last Friday evening by the Coleman Players in the K. P. hall.

Although numerous requests for a repeat performance of the programme presented on Dec. 8th, it was felt that owing to the Xmas season being at hand, it would be better to wait until the latter part of January, when a new series of one-act plays will be presented.

The following officers were elected for the ensuing season:

Pres., R. F. Barnes; vice-pres., Miss O. Hole; dramatic director, A. E. Graham; business manager, S. C. Short; sec-treas., Miss E. Haysom; property manager, M. W. Cooke. After Genevieve LeClair had opened a portion of her fan mail, a delightful dance was held until about 1 a.m., when dainty refreshments were served to the King's taste, which proved that the fair members of this organization excelled also in the culinary art as well as the art of dramatic entertainment.

VALUABLE FOX ADDED TO STAR CREEK RANCH

"Come and take a look at this baby," exclaimed Alex Beck of Star Creek Silver Fox Farm, as he pulled up at The Journal office with a thousand dollar prize fox in his car. It has just arrived from the exhibition at Saskatoon, and was purchased from the famous stud of Dr. R. H. McDonald, whose exhibits fan into thousands of dollars in value, and who was awarded 42 ribbons and seven cups for his exhibits in the Western Canada Fox Breeders Association.

There are about 200 foxes now at the ranch, which are thriving in the splendid surroundings at this ideally located ranch west of Coleman.

POST OFFICE HOURS

The general delivery and parcel wickets at the post office will remain open on Christmas Day from 9:30 to 10:30 a.m. Should the train be late the wickets will be open just long enough to serve those who are waiting.

On Wednesday, Christmas Eve, the office will remain open till 6 p.m.

FERNIE BADMINTON PLAYERS DID NOT COME HERE

After a number of players from Coleman club visited Fernie two weeks ago, it was decided by Fernie that they would play the return games the following week. Coleman made preparations when on Saturday they were disappointed by receiving word that the visitors would be unable to come till after the new year. Coleman had great hopes of making a much better showing on their own court than at Fernie, where a very low ceiling handicapped them after being accustomed to the high ceiling of the Opera House here.

LAST MINUTE ORDERS

for Personal Greeting Cards will be filled at The Journal office till noon on Wednesday.

MAN OF MANY LANDS

Gary Cooper, who played the perfect English country gentleman in "Doomsday," the effervescent Frenchman in "Beau Sabreur," the doughty Swiss in "Betrayal," is a Texas plainsman who migrates to South America in his latest feature picture, "The Texan." "The Texan" is Paramount's new all-talking outdoor romance, the companion to "The Virginian," and plays at the Palace on Mon.-Tues. and Wed.

"The Song of Flame"—a life-like technicolor picture, a spectacular production with an intense love story finely acted by a superb cast, is billed for the Palace the first part of the week in New Year's. Bernice Claire and Alexander Gray are starring.
